Department Leadership

Courtney M. Kay-Decker – Director

Bryce Berg - Administrator, Compliance Division

Victoria L. Daniels - Administrator, Policy and Communications Division

James Hester - Administrator, Technology and Information Management Division

Jessica Holmes - Administrator, Internal Services Division

Julie G. Roisen - Administrator, Property Tax Division

Stuart Vos - Administrator, Revenue Operations Division

Mission, Vision, and Core Functions

Mission

The statutory mission of the Iowa Department of Revenue is to serve Iowans and support state government by collecting all taxes required by law, but no more.

Vision

Iowa will be a state where it is easy to understand and comply with tax obligations.

Core Functions

The core functions of the Iowa Department of Revenue consist of, and are generally described, as follows:

REVENUE COMPLIANCE AND COLLECTION is the most visible portion of our operations. This function includes educating taxpayers - our customers - on tax laws and regulations, processing tax returns and related documents, and collecting taxes and other amounts due, all in compliance with Iowa's tax laws. It is under this umbrella that the Department conducts its taxpayer examination and audit programs, and resolves disputed tax issues.

LOCAL GOVERNMENT ASSISTANCE provides support to local governments. This function is responsible for administering just and uniform property assessments across the state. It also administers programs for property tax relief, local option sales tax, and school infrastructure sales tax.

RESEARCH, ANALYSIS, AND INFORMATION MANAGEMENT provides tax policy development and analysis, fiscal impact estimation, and economic and statistical research and analysis to help customers, stakeholders, and policymakers make informed decisions.

RESOURCE MANAGEMENT provides internal infrastructure support of the Department's operations, including technology development and support, personnel management, and budgeting.

Assessment

The Department of Revenue has the opportunity to interact with nearly every Iowan at some point during his or her lifetime. The Department is also the financial engine of the state, responsible for collecting the vast majority of the appropriable revenues. We deal with complex tax laws, and must craft regulations in support of those laws. To do our job, we must effectively communicate with our constituencies, in large part by finding ways to make the complex simple and more efficient along the way.

Significant Achievements: Electronic Filing

Iowans expect to be able to transact business electronically if they so desire. The Department offers electronic filing in recognition of that desire, and was on the leading edge of this service. Taxpayers who eFile receive refunds faster, and are significantly less likely to have a return rejected for having errors. Iowa consistently ranks within the top five states for the percentage of returns filed electronically. During Fiscal Year 2011:

- 85% of individual tax returns were filed electronically;
- 99% of withholding tax returns were filed electronically; and
- 96% of sales/use returns were filed electronically.

In 2011, for the first time, taxpayers were also able to eFile corporate, subchapter S corporation, and partnership returns.

Challenges and Opportunities

TECHNOLOGY: Technology has become a critical element to the efficient delivery of services in every industry. Our technology and systems were developed decades ago based upon a paper-based economy. We must plan for modernization of our hardware and software systems in a way that leverages the experience of other agencies, and creates opportunities for collaboration. One of our challenges in this arena will be to re-imagine our processes to more efficiently deliver our core services and functions with the benefit of today's technology.

TRANSPARENCY: 2011 legislation provides the foundation for statewide tax rate and budget databases. The Department is an important partner in ensuring this information reaches taxpayers. Many errors and disputes arise from misunderstandings about applicable tax obligations. Our audit, examination, and collections operations are successful in collecting significant revenues owed to the State. However, we will be more efficient if we reduce the number of compliance contacts we must initiate with taxpayers. Our challenge is find ways to clearly and concisely communicate information to taxpayers, such as through the Iowa Transparency Portal, so that they can voluntarily and correctly comply.

Guiding Principles

Governor Branstad has outlined four overarching goals for his administration, as follows:

- Create 200,000 New Jobs,
- Reduce the Cost of Government by 15%,
- Restore Iowa's Educational System to Number One in the Nation, and
- Increase Family Incomes by 25%.

The Department of Revenue will do its part to support and further these goals. We have developed this Strategic Plan with the Governor's goals as our guiding principles. We have also adopted the following detailed Departmental Guiding Principles:

CUSTOMER FOCUS

- We understand that Iowa taxpayers are our number one customers.
- We collaborate and partner with both our internal and external customers.
- We use technology to support our customers more efficiently.
- We maintain the public's confidence by safeguarding our customers' confidential information.

EXPERTISE

- We provide expert advice and support to policymakers and to local and state government entities.
- We help local governments responsibly manage their fiscal resources through our support of the property tax system and distribution of local option taxes.
- We educate and train employees to gain the knowledge needed to perform their jobs the best they can.

EDUCATION

- We recognize that Iowa tax laws are complex and we provide the services and education necessary to facilitate compliance.
- We simplify regulations where possible and recommend policy that enhances the ease of taxpayer compliance.

FISCAL MANAGEMENT

- We responsibly manage our financial resources to fulfill our mission.
- We continually monitor and measure our internal processes to assure economy and efficiency, keeping the cost of state government as low as possible.
- We work with the Legislative Branch to recommend fiscally sound legislation that reflects the fiscal obligations of the State.

IOWA Department of REVENUE

Goals, Measures, Strategies, and Action Steps

GOAL: Provide Superior Customer Service

MEASURES:

- Taxpayer satisfaction.
- Employee performance.
- Number and subject matter of taxpayer contacts.

STRATEGIES:

- Acknowledge and reward positive behavior and interactions.
- Expand employee training.
- Lead by example.

ACTION STEPS:

- Explore existing taxpayer feedback mechanisms for additional opportunities.
- Continue to implement and refine results-based employee performance plans.
- Continue to monitor and track calls and Web hits; adjust communications and education accordingly.
- Review all audit programs for return on investment.

GOAL: Provide Accurate, Clear, and Concise Information to Taxpayers

MEASURES:

- Percentages of known-due individual and corporate income taxes paid timely.
- Recovery rate for major tax types.
- Number of hits to the Department's Web site.
- Number of assessments and protests that are not resolved in the Department's favor.

STRATEGIES:

- Develop and implement a state of the art taxpayer education program.
- Leverage employee and taxpayer feedback to provide targeted education and communication.
- Provide the right information to taxpayers in the most efficient and effective manner.

ACTION STEPS:

- Create a taxpayer education focus and create a promotion and education plan, including possible use of social networking tools.
- Contact taxpayer, tax preparer, and industry groups prior to initiating audit programs.
- Expand opportunities for "self audit" programs as opposed to traditional audit activities.

Goals, Measures, Strategies, and Action Steps

GOAL: Modernize the Delivery of Tax Administration Services

MEASURES:

- Taxpayer satisfaction.
- Processing cycle time.
- Employee productivity.
- Return on investment.

STRATEGIES:

- Review current processes and system needs in each division.
- Investigate other tax administration systems and applications.
- Conduct ongoing review of forms and automated communications.

ACTION STEPS:

- Assemble interdepartmental team to determine scope of projects.
- Prepare and release RFPs for replacement of new processing systems.
- Review and evaluate bids.
- Begin phased-in implementation.
